IQRA NATIONAL UNIVERSITY, PESHAWAR
WATER SECURITY AND COOPERATION POLICY

In Collaboration with Peshawar Development Authority (PDA)

Policy No.	INU/ENV/WSCP/2026	**Effective Date**	September 2024
Responsible Office	Administration / Sustainability	**Review Cycle**	Every 3 years

1. Purpose

Iqra National University (INU) is committed to promoting water security, sustainable water management, and practical cooperation with the Peshawar Development Authority (PDA) and other relevant public institutions. The Policy provides a framework for joint initiatives that improve water management, conservation, quality, and resilience in and around the University.

2. Policy Statement

INU will work with PDA, relevant Government of Khyber Pakhtunkhwa departments and other stakeholders to support efficient water use, protection of water resources, improved drainage and wastewater management, rainwater management, technical capacity building and community awareness.

3. Priority Areas of Cooperation with PDA

- Joint assessment of water-management and drainage issues affecting the University and surrounding areas.
- Water conservation, efficient water use and identification of water losses.
- Water-quality monitoring and technical awareness.
- Rainwater harvesting, stormwater management and groundwater recharge where feasible.
- Improvement of wastewater and drainage management in coordination with relevant authorities.
- Technical studies, student projects, research and capacity-building activities.
- Community awareness initiatives concerning responsible water use and protection of local water resources.

4. Institutional Cooperation

INU and PDA may establish formal cooperation through a Memorandum of Understanding (MoU), letter of cooperation, joint technical activities, or project-specific arrangements. Any formal agreement will be subject to approval by the competent authorities of both institutions.

5. Implementation and Monitoring

- INU will designate an office or focal person to coordinate water-security activities with PDA.
- Joint activities and meetings will be documented through official correspondence, minutes, reports and photographs.
- The University will periodically review campus water use, water quality and feasible conservation measures.
- Progress and outcomes of joint initiatives will be reviewed annually.

6. Key Targets

- Establish and maintain formal cooperation with PDA on water-related matters.
- Undertake at least one joint water-management or technical activity annually.
- Conduct periodic assessment of campus water use and drinking-water quality.
- Identify feasible rainwater-harvesting, drainage and water-conservation measures.

7. Approval

This Policy shall take effect upon approval by the competent authority of Iqra National University and may be reviewed every three years or earlier where required.
